

SUBJECT INDEX

- Abbotsford aquifer, Fraser Lowlands, SW
British Columbia, Canada 391
- Acid mine drainage, 237, 285
electrochemical amelioration 705
- Adsorption, 715
by colloidal (hydr)oxides 197
by peat 207
- Actinides
carbonate complexes 565, 573
hydroxyl complexes, 573
humic acid complexes 573
in ground water 565
- Ag
in ochre 237
in Paleozoic rocks 581
- Al
in colloids 119
in groundwater 1
in lake water 45
in stream water 45
- Alberta, Canada 357
Alberta Basin, Canada 357
Albite, dissolution, effect of malonate on 17
Alwyn South, U.K. North Sea 531
Ar, in groundwater 505
Arkansas River, Colorado, U.S.A. 133, 285
- As
in acid mine drainage 285
in Arkansas river 285
in ochre 237
in soils 307
in waters 517
- Au
exploration for 517
in pelagic marine sediments 35
in terrigenous derived marine
sediments 35
in waters 517
mineralization 517
organo-complexes 35
- Au/Cu ratios, in marine sediments 35
- Australia, Queensland 329
- B
in groundwater 1
in waters 133
- Ba
in brines 447
in colloids 119
in lower Paleozoic rocks 581
- Baltic Sea, 477
- Basalt, hydrothermally altered, geochemistry
and mineralogy 621
- Be, in groundwater 1
- Bi
in groundwater 1
in ochre 237
- Bois Madame, Gard, France 419
- Book Review
European Coal Geology 599
Geofluids: Origin, Migration and
Evolution of Fluids in Sedimentary
Basins 251
- BP-Wolf Lake, Alberta, Canada 65
- British Columbia, Canada 591
- Bronze cannon, corrosion of 477
- ¹³C
in carbonates 373, 407
in CH₄ 407
in chlorinated organic solvents 547
in CO₂ 407
in gas field waters 407
in groundwaters around crude oil spill
605
in organics 373
in waters produced during *in situ*
combustion 65
- Ca
exchange by K in smectite 347
in colloids 119
in geothermal waters 337
in groundwater 1
in hydrothermally altered basalt 621
in lake water 45
in stream water 45
in tooth enamel 145
in waters 133
in waters produced during *in situ*
combustion 65
- California, U.S.A. 533
- Canada
Alberta 65, 357
British Columbia 391
Manitoba 477, 657
Nova Scotia 175
Ontario 705
- Carson River, California/Nevada, U.S.A. 553
- Carson River Basin, U.S.A. 491
- Cd
in acid mine drainage 285, 705
in Arkansas River 285
in groundwater 1
in ochre 237
- Ce, in Paleozoic rocks 581
- Central Pacific Basin, 35
- CH₄, from a crude oil spill 505
- Chihuahua, Mexico 685

- China 643
 sedimentary basins of 643
- Chlorinated organic solvents
¹³C in 547
³⁷Cl in 547
 in groundwaters 547
- Cl
 in acid mine drainage 705
 in coal field brines 447
 in gas field waters 407
 in geothermal waters 337
 in groundwater 1
 in lake waters 45
 in stream waters 45
 in tooth enamel 145
 in waters 133
 in waters produced during *in situ* combustion 65
- ³⁷Cl, in chlorinated organic solvents 547
- Contamination
 evaluation of, using overbank sediments 97
 from mining activity 97
 from smelting 307
 of harbour sediments 175
 of lake sediments 229
- Co
 in acid mine drainage 237, 705
 in lake sediments 229
 in ochre 237
- CO₂
 disposal on sea floor 461
 interaction with seawater 461
 reduction 461
- CO₂ hydrate, stability 461
- CO₃²⁻, in tooth enamel 145
- Colima volcano, Mexico 215
- Colloids, influence on metal transport 285
- Colorado, U.S.A. 133, 285
- Corrigendum, 369
- Cr, in lake sediments 229
- Crude oil, spillage 505
- Cs
 in groundwater 1
 radioactive 715
 sorption, in soils 715
- Cu
 behaviour of, during corrosion of bronze 477
 in acid mine drainage 237, 285, 705
 in Arkansas River 285
 in colloids 119
 in groundwater 1
 in harbour sediments 175
 in lake sediments 229
 in marine sediments 35
 in ochre 237
 in Paleozoic rocks 581
- Denitrification, 207
- Diagenesis
 bacterial activity during 419
 behaviour of Au during 35
 cements 531
 in reservoirs 531
 in harbour sediments 175
 SO₄ reduction during 373
- Diamonds
 euhedral micro 725
 stability 725
- Dry River South, Queensland, Australia 329
- El Berrocal pluton, Toledo, Spain 119
- El Chichón volcano, Mexico 215
- England
 Exmoor National Park, Devon 85
 Levant Mine, Cornwall 237
- Erratum, 115
- Etruscan Swell, Italy 337
- Exmoor National Park, Devon, SW England, U.K. 85
- F
 in acid mine drainage 705
 in formation waters 357
 in geothermal waters 337
 in groundwater 1
 in lake water 45
 in stream water 45
 in tooth enamel 145
- Fe
 in acid mine drainage 237, 285, 705
 in Arkansas River 285
 in colloids 119
 in groundwater 1
 in hydrothermally altered basalt 621
 in lake sediments 229
 in waters produced during *in situ* combustion 65
 reaction with Cu during weathering of bronze 477
- Fe ochre, geochemistry 237
- Finland 45, 209
- Floodplain sediments, geochemistry 97
- Formation Waters
 F in 357
 V in 357
- France
 Gard 419
 Nice 145
- Gard, France 419
- Germany 161
- Geochemical exploration
 for Au 517
 for diamonds 725
 for massive sulphide deposits 329
- Geochemical mapping
 using overbank sediments 97
 using stream sediments 97
 using waters 45

- Geochemical modelling
 around low level radioactive waste sites 673
 of K exchange 347
 of radionuclide transport 573
- Geothermometry
 of fluid inclusions 531
 of geothermal waters 337
- Groundwater
 actinides in 565
 brine chemistry 447
 chemistry, influence on nuclear waste vault design 657
 chlorinated organic solvents in 547
 contamination by oil 505
 gross-beta activity in 491
 Nd in 565
 NO₃⁻ in 391
 Norwegian bedrock 1
 quality 1
 transport of actinides in 573
- H⁺
 in lake waters 45
 in stream waters 45
- ²H
 in brines 447
 in groundwaters around crude oil spill 505
 in reservoir cements 531
 in waters produced during *in situ* combustion 65
- Halifax harbour, Nova Scotia, Canada 175
- HCO₃⁻
 in geothermal waters 337
 in lake water 45
 in stream water 45
- ³He/⁴He in oil-field gases, China 643
⁴He/²⁰Ne in oil-field gases, China 643
- Hg
 in harbour sediments 175
 in lake sediments 229
- Hokuroko district, Honshu, Japan 621
 Honshu, Japan 621
 Hvaler archipelago, Norway 1
 Hydrogeochemical maps 45
 Hydrogeochemistry
 for volcanic eruption prediction 215
 of acid mine drainage 705
 of actinides 565
 of Au 517
 of bedrock groundwaters 1
 of coalfield brines 447
 of formation waters 357
 of geothermal waters 337
 of groundwaters 391, 505, 565, 657, 673
 of lakes 45
 of mine waters 237
 of Nd 565
 of NO₃⁻ 391
 of streams 45
 of combustion waters 65
- I
 deficiency disorders in livestock 85
 in topsoils 85
 in shallow groundwater 85
 in stream waters 85
- Isotopes
 C 65, 373, 407, 505, 547
 Cl 547
 H 65, 447, 505

- in acid mine drainage 237, 285, 705
 - in harbour sediments 175
 - in lake sediments 229
 - in ochre 237
 - leach mining of 253
- Mn oxide minerals, dissolution by SO₂ 253
- Mo, in groundwater 1
- Monti Romani, S Tuscany/N Latium, Italy 581
- Moore-Sams gas field, Louisiana, U.S.A. 407
- Morganza gas field, Louisiana, U.S.A. 407
- Munich, Germany 161
- N₂, in groundwater 505
- ¹⁵N
- in groundwater 391
 - in NH₄-based fertilizers 391
 - in NO₃ 391
 - in poultry manure 391
- Na
- exchange by K in smectite 347
 - in hydrothermally altered basalt 621
 - in geothermal waters 337
 - in groundwater 1
 - in lake water 45
 - in stream water 45
 - in tooth enamel 145
 - in waters 133
 - in waters produced during *in situ* combustion 65
- Nb, in Paleozoic rocks 581
- Nd
- complexes with CO₃ 565
 - in groundwaters 565
- Nevada, U.S.A. 553, 565, 685
- New Jersey, U.S.A. 491
- NH₄, adsorption on peat 207
- Ni
- in acid mine drainage 705
 - in harbour sediments 175
 - in lake sediments 229
 - in ochre 237
 - in Paleozoic rocks 581
- Nice, France 145
- Nitrification, 207
- NO₃
- in groundwater 391
 - in lake water 45
 - in stream water 45
- Nopal 1 U deposit, Pena Blanca District, Chihuahua 685
- Nord Trøndelag, Norway 1
- Norway
- Hvaler archipelego 1
 - Nord Trøndelag 1
 - Oslofjord 1
- Nova Scotia, Canada 175
- Nuclear waste glass, corrosion of 269
- ¹⁸O
- in authigenic carbonates 373
 - in brines 447
 - in formation water 407
 - in gas field water 407
 - in groundwater 391
 - in NO₃ 391
 - in precipitation 161
 - in seepage water 161
 - in soils 161
 - in soil quartz 111
 - in waters produced during *in situ* combustion 65
- Oak Ridge, Tennessee, U.S.A. 673
- Obama Bay, Japan 35
- OH⁻, in tooth enamel 145
- Oklahoma, U.S.A. 491
- Ontario, Canada 705
- Organic acids, in waters produced during *in situ* combustion 65
- Organic anions
- in lake water 45
 - in stream water 45
- Organic complexing agents, in transport of radionuclides 573, 673
- in transport of heavy metals 673

- Osilo, N Sardinia, Italy 517
 Oslofjord, Norway 1
- ²³⁴Pa, in stored groundwater samples 491
- Pb
 in acid mine drainage 285
 in Arkansas River 285
 in groundwater 1
 in harbour sediments 175
 in lake sediments 229
 in ochre 237
 in Paleozoic rocks 581
 isotopes in fault gouges 437
 mineralization 419
- PO₄, in tooth enamel 145
